**DETAILED ACTION**

1. Claims 1-36 have been examined.

***Response to Amendment***

2. The Amendment, and remarks therein, received on 3/02/2005 have been entered and considered.
3. The Amendment introduces new limitations into the originally sole independent claims 1, 11, 18, 27, 30, 32 and 35, and to dependent claims 11,13, 15, 17, 19, 22-23, 25, 28 and 33.
4. Applicant's arguments in regard to the previous Office Action address newly introduced limitations and as a result the arguments are addressed in 35 USC § 112 first paragraph rejection, bellow.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-36 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one

Art Unit: 2134

skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

6. There is lack of support in the specification for the added limitations in the claims (i.e. the added limitation "the first and third encryption and decryption keys are associated with the first node" in claim 1, "the fourth encryption and decryption keys are generated by the first node" in claims 11 and "wherein the fourth encryption and decryption keys are generated by the first node" in claim 16 has no support in the specification).
7. When an amendment is filed in reply to an objection or rejection based on 35 U.S.C. 112, first paragraph, a study of the entire application is often necessary to determine whether or not "new matter" is involved. Applicant should therefore specifically point out the support for any amendments made to the disclosure. See MPEP § 2163.06.
8. Corrections or clarification is required.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2134

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
